

Montavious 12

Montavious is a handsome boy with a big beautiful smile! He enjoys watching TV, playing video games, and riding his bike. He is very talkative and social. A family would need to have a high energy level and avail themselves to recreational events in order to expose Montavious to activities to increase knowledge and self-esteem. They would also need to be strong advocates for Montavious's educational needs. It is also important to Montavious that he has continued contact with his siblings.
